**Earlston Crescent, Phase 1**

In 2018, we completed the development of an area of land in **Earlston Crescent, Coatbridge**. For this project, we built 8x 4 Bedroom Semi-detached homes.

These homes followed the same floorplan as those in Phase 2, above; however, the exterior finish has been altered to blend in better with the neighbouring properties.

For this phase, instead of the blonde facing brick (as with the previous 9), we have opted for a white cast finish on the main elevations and a decorative blonde fascia brick on the front extremity (see below).

The last plot sale was formally completed in August 2018.
